Biometrics is the technical term for body measurements and calculations. It refers to metrics related to human characteristics. Biometrics authentication (or realistic authentication) is used in computer science as a form of identification and access control. It is also used to identify individuals in groups that are under surveillance.. Biometric identifiers are the distinctive, measurable ...

A facial recognition system is a technology capable of identifying or verifying a person from a digital image or a video frame from a video source. There are multiple methods in which facial recognition systems work, but in general, they work by comparing selected facial features from given image with faces within a database. It is also described as a Biometric Artificial Intelligence based ...

Requirements for Recognition as a CNA 2. Hold a current, unencumbered Oregon CNA 1 certificate; and Complete an OSBN-approved nursing assistant level-2 training program; and Pass the corresponding competency evaluation.

Oregon State Board of Nursing CNA and CMA Certification

Although the problem has been around since the dawn of radio communications and broadcasting, power-line noise is on the rise. The proliferation of electrical and electronic devices that are potential victims of power-line noise, coupled with today's increased dependence on mobile and wireless communications, have each contributed to this increase.

Power Line Noise - American Radio Relay League

Abstract. The clinical interpretation of urine drug screens (UDS) and its confirmatory process is a complicated, multi-step process that involves comprehensive knowledge of the analytic testing procedure, along with its rationale.
